

Portable TIG Welding Machine

This portable TIG welding machine is designed for precision welding applications. It features adjustable parameters for optimal control and performance.

Product Overview

Precision TIG Welding Solution

This portable TIG welding machine is engineered for high-precision welding tasks, offering superior control and performance for professional applications. Featuring adjustable parameters, it ensures reliable results across a variety of materials and demanding work environments. Its compact, durable construction provides both portability and long-term service life, making it a versatile tool for complex projects.

Technical Capabilities

Core Performance

200 A

Max Current

Model Identification	TIG-200P
Welding Technology	TIG, Pulse, AC/DC, Inverter

Design & Build

Key Features

- Portable design for site versatility
- Adjustable welding parameters
- Durable housing for industrial use
- Advanced inverter technology
