Product Overview

Professional Portable Illumination

The Portable Tripod Balloon Light Tower offers a versatile lighting solution designed for construction sites, emergency response, and large-scale outdoor events. Engineered for durability, it features a 360-degree projection to eliminate blind spots while providing soft, glare-free, and anti-fatigue illumination. Its robust telescopic mast and adjustable tripod base ensure stable operation on uneven terrain, slopes, and challenging environments.

Technical Specifications

Maximum Height	3.5 m
Projection Direction	360 degrees
Lamp Type Options	Metal Halide, LED

Performance & Durability

Resistance Standards	Rain-resistant, Water-sprayed resistant, Wind-resistant (Level 8)
Slope Stability	15 degrees

Power Requirements

Supported Power Supply

- Municipal electricity
- Generator set

Compliance

Certifications

ISO9001 • CE • EPA
