

Portable Trolley Speaker with Bluetooth and LED Lighting

This portable trolley speaker system features Bluetooth, USB/TF, FM radio, and aux input for versatile audio playback. It includes LED color-change circle light and a disco ball light for visual effects, and it is compatible with both wired and wireless microphones.

Overview

Professional Portable Audio Solution

This portable trolley speaker is designed for mobile audio applications, offering high-fidelity sound through a 3-inch tweeter and 8-inch woofer configuration. It features versatile connectivity options including Bluetooth, USB, TF, and FM radio support, alongside dedicated microphone inputs for event hosting. Built-in LED disco ball and circle lighting effects create an immersive atmosphere, while the rechargeable battery ensures long-lasting performance for outdoor or indoor use.
