

Portable Trolley Speaker with Bluetooth and Recording

This portable speaker system is designed with a trolley and wheels for easy transport. It has an 80W output, multiple input options, and a microphone priority function.

Product Overview

Professional Portable Sound Solution

The T2 portable trolley speaker is engineered for versatile audio performance in outdoor and mobile settings. Featuring a robust 80W output, this system combines a 12-inch woofer with a tweeter for balanced sound. With built-in wheels, a high-capacity lead-acid battery, and comprehensive connectivity options, it provides a reliable, all-in-one solution for public speaking, events, and entertainment.
