

Portable Trolley Speaker with Bluetooth and USB

This portable trolley speaker is equipped with Bluetooth, USB, FM radio, and aux inputs. It also supports both wired and wireless microphones, making it suitable for a variety of audio applications.

Product Overview

Versatile Portable Audio Solution

This portable trolley speaker system is designed for high-performance audio applications in professional settings. Featuring a robust 120W power output and a 15-inch drive unit, it delivers clear, high-fidelity sound. The integrated trolley design, including a telescopic handle and wheels, ensures excellent mobility, making it an ideal choice for mobile events, presentations, and public performances.
