

Portable Trolley Speaker with Bluetooth and Wireless Charging

This portable trolley speaker features Bluetooth, USB/TF, FM radio, and Aux inputs. It is equipped with LED color-change reflection lights and can recharge mobile devices via wireless charging and USB.

Product Overview

Versatile Portable Audio System

This high-performance trolley speaker is designed for professional and recreational use, featuring a robust 120W output. It offers seamless connectivity through Bluetooth, USB, TF, and auxiliary inputs, while supporting both wired and wireless microphones for karaoke or public speaking. With built-in wireless charging for mobile devices and an integrated trolley design, this unit provides a perfect blend of power, convenience, and modern functionality.
