

Portable Trolley Speaker with LED Lighting

This portable trolley speaker delivers powerful sound and is equipped with a telescopic handle and durable wheels for easy transport. It supports multiple input options such as Bluetooth, USB, and SD card, and features microphone inputs with adjustable echo and volume controls.

Overview

Versatile Portable Audio Solution

This portable trolley speaker is designed for maximum mobility, featuring a telescopic handle and durable wheels for easy transportation at events or presentations. It delivers powerful audio performance with an 80W output, supporting versatile inputs including Bluetooth, USB, SD, and dedicated microphone or guitar channels. The integrated sound-controlled LED lighting system provides an engaging visual experience, while the long-life rechargeable battery ensures reliable operation in any setting.
