

Portable Trolley Speaker with LED Lighting

This portable trolley speaker delivers versatile audio performance with Bluetooth, USB, and FM radio capabilities. It features LED lighting, microphone/guitar inputs, and a rechargeable battery for mobile use.

Product Overview

Professional Portable Audio Solution

The Portable Trolley Speaker is a high-performance audio system designed for professional versatility in both indoor and outdoor environments. Featuring dual 12-inch woofers and a robust 120W power output, it delivers clear, high-quality sound for events, parties, and presentations. With integrated LED lighting, multiple connectivity options, and a mobile trolley design, this unit combines powerful audio performance with ease of use.
