

Portable Twin-Tank Air Compressor

This portable air compressor features a twin-tank design for increased air storage. It is equipped with a durable motor and pump assembly, providing reliable performance for a variety of applications.

Product Overview

Professional Twin-Tank Performance

This portable air compressor features a twin-tank design for increased air storage capacity. It is equipped with a durable motor and pump assembly, providing reliable performance for a variety of applications. Its compact and lightweight design allows for easy transportation and storage, making it ideal for DIY projects, inflation tasks, and powering pneumatic tools.

Technical Specifications

Performance Metrics

1.5 kW

Power

115 Psi

Discharge Pressure

89 dB(A)

Noise Level

Speed and Displacement

Metric	50Hz	60Hz
Rated Speed (r/min)	2850	3450
Displacement (L/min)	206	248
Displacement (CFM)	7.3	8.8

Model Code	ZB-0.1/8
------------	----------

Physical Dimensions

Dimensions & Weight

- Tank Capacity: 17 L (4.5 Usgal)
- Net Weight: 26 kg
- Outer Size: 47 x 47 x 47 cm

Construction Details	Twin-tank design, Portable, Compact, 148x1 Cylinder
