

# Portable Twin Tub Washing Machine with Timer

This portable washing machine features separate wash and spin cycles. It includes timers for both washing and spinning for customized cleaning.

## Product Overview

### Compact Washing Solution

This portable twin tub washing machine is an efficient, space-saving solution designed for environments where traditional laundry setups are not feasible. Featuring separate wash and spin cycles, it offers users customized cleaning control via dedicated timers. Its compact design makes it an ideal choice for apartments, dormitories, and recreational vehicles.
