Product Overview

High-Performance Portable Car Charging Solution

This 2022 model portable fast car charger is designed for professional travel and commuting needs, offering rapid power delivery for a wide range of mobile devices. Featuring a dual-port design with PD and QC3.0 protocols, it ensures maximum charging speeds for smartphones, tablets, and even Type-C laptops. Built with high-quality ABS material and an integrated LED voltage monitor, it combines durable construction with real-time safety tracking for your vehicle's electrical system.

Technical Performance

Charging Performance

65 W

Max Power Output

3 A

Max PD Current

PD Output Levels

- 5V/3A
- 9V/2A
- 12V/1.5A

Supported Protocols

PD (Power Delivery), QC 3.0 (Quick Charge), 65W Flash Charge

Design & Build

Elastic metal contacts on both sides ensure a stable connection even on bumpy roads.

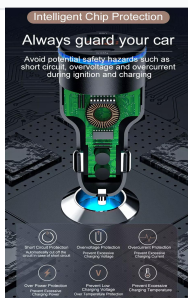

The unique side LED backlight ring provides a modern aesthetic and visibility in low-light conditions.

Visual Indicators

- LED Digital Voltage Display
- Blue LED Backlight Ring
- Cylindrical Compact Form

Model Number	YSK-C8
Housing Material	ABS
Product Size	33*72mm

Safety & Protection

Advanced intelligent chip protection guards against short circuits, overvoltage, and overcurrent.

Real-time battery voltage monitoring via the integrated LED digital display.

Integrated Safety Features

Short Circuit Protection • Overvoltage Protection • Overcurrent Protection • Over Power Protection • Over Temperature Protection • Low Voltage Protection

Battery Voltage Reference

Vehicle Type	Normal (Pre-Startup)	Normal (After Startup)
12V Vehicle	11.6V - 12.8V	11.6V - 14.8V
24V Vehicle	23.2V - 25.6V	23.2V - 27.2V

Compatibility

 <p>Compatible with Almost All Motor Vehicles</p> <p>12V-24V wide range input</p> <p>Suitable for cars, SUVs, trucks and almost all the vehicles.</p>	 <p>Notebook Charging</p> <p>The office on the car will never be powered off</p> <p>Applicable Equipment: Huawei series (C-Port notebook), Google series (C-Port notebook), Type-C interface notebook such as MacBook series notebook.</p> <p><small>Note: When using fast charging, please select the fast cable with Type-C interface at 5A or above.</small></p>
<p>Universal 12V-24V input makes this charger suitable for cars, SUVs, and heavy-duty trucks.</p>	<p>High-power output supports charging for Type-C notebooks and MacBooks on the go.</p>

Vehicle Compatibility	Universal for 12V-24V models (Cars, SUVs, Trucks)
Compatible Devices	Smartphones, Tablets, iPads, Type-C Laptops, MacBooks, Digital Cameras, Dash Cams

B2B Services

OUR ADVANTAGE

Comprehensive OEM/ODM services including custom design, labeling, and fast delivery options.

Customization Services

- OEM Support
- ODM Support
- Custom Logo Branding
- Custom Packaging Design
- Labeling Services

Order Information	Small orders accepted; Factory direct sales
Compliance & Certifications	CE, FCC, RoHS, REACH, ISO 9001, BSCI
