

Portable USB Rechargeable Blender

This portable blender is USB rechargeable, making it ideal for smoothies, shakes, and juices on the go. It features a compact design with a durable construction and a built-in rechargeable battery.

Product Overview

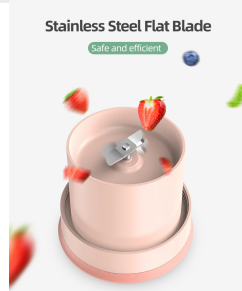

Intuitive one-button interface: double-click to start, single-click to stop.

Efficiency Meets Portability

This portable USB rechargeable blender is designed for busy, health-conscious lifestyles, allowing you to prepare fresh juices, smoothies, and shakes in just 36 seconds. Featuring a cordless design and a convenient carrying strap, it is the perfect companion for the office, gym, or travel. The unit is built from food-safe, BPA-free PCTG material and utilizes a high-speed stainless steel blade for consistent results every time.
