

Portable Water-Based Fire Extinguisher for Vehicle and Home

This portable fire extinguisher is designed for use in vehicles and homes. It is effective against Class A, B, E, and F fires.

Product Overview

Versatile Portable Fire Safety Solution

This water-based portable fire extinguisher is designed for rapid response to early-stage fires in vehicles, homes, and offices. Its non-toxic and eco-friendly formula provides effective protection against various fire classes while offering additional benefits like smoke suppression and heat insulation. Compact and easy to operate, it serves as a reliable emergency tool for personal safety and asset protection.
