

Power Angle Cutter

This power angle cutter is designed for efficiently cutting through various materials. It features a durable construction and safety guard for user protection during cutting operations.

Overview

Professional Power Angle Cutter

This high-performance power angle cutter is engineered for precision and efficiency in demanding cutting tasks. Featuring a robust 2100W motor and a durable construction, it provides reliable operation for various materials. Designed with user comfort and safety in mind, it includes an ergonomic handle and a protective guard, making it an ideal choice for professional applications.

Technical Specifications

Performance Metrics

2100 W

Power Output

6600 RPM

No-Load Speed

Model Number	KPC230P
Cutting Capacity	55 mm
Blade Diameter	230 mm

Features

Key Features

- Robust motor for efficient performance
- Durable construction for long-lasting use
- Integrated safety guard for debris protection
- Ergonomic handle to reduce user fatigue
- Compatible with various cutting discs

Usage	Professional Use, DIY Use
