

Power Cord for Optical Instruments

This is a standard power cord for physical optical instruments. It features a two-prong plug on one end for connecting to a standard electrical outlet and a polarized connector on the other end for connecting to the instrument.

Product Overview

Professional Optical Instrument Power Solution

This durable power cord is specifically engineered for precision optical instruments, ensuring reliable power delivery for measurement and analysis equipment. Featuring a standard two-prong plug and a polarized instrument-side connector, it is designed for secure and consistent connectivity in laboratory or industrial environments. The robust PVC insulation provides long-lasting protection, making it an essential component for maintaining operational uptime.

Technical Specifications

Connector Type	Polarized molded connector
Plug Type	Standard two-prong
Insulation Material	Durable PVC
Model Identifier	DG-R
Application Compatibility	Optical Instruments, Measurement Equipment, Analysis Equipment
