

# Power Drill Metal Cutter Attachment

This attachment converts a power drill into a sheet metal cutter. It features a 360-degree adjustable cutting head suitable for cutting various materials.

## Product Overview

### Versatile Metal Cutting Solution

This metal cutter attachment is engineered to transform standard power drills into efficient metal cutting tools. Featuring a 360-degree adjustable cutting head, it allows for precise cuts on sheet metal, corrugated materials, pipes, and complex profiles. Built for durability and control, this attachment includes a stabilizing handle and essential maintenance tools for reliable performance in various fabrication tasks.

## Technical Specifications

Cutting Head	360-degree adjustable
Compatible Materials	Sheet Metal, Corrugated Materials, Pipes, Complex Profiles

## Features & Accessories

### Included Accessories

- Stabilizing handle
- Adjustment wrench

### Construction

Robust Design • Durable
