

Power Mitre Saw for Wood and Plastic

This power mitre saw is designed for making accurate crosscuts and mitre cuts in various materials. Its pivoting arm and adjustable blade angle allow for precise angled cuts in woodworking, construction, and home improvement applications.

Overview

High-Performance Mitre Saw

This 1800W power mitre saw is engineered for precision cutting in both wood and plastic materials. Designed for professional woodworking and construction tasks, it features a high-speed motor and a versatile pivoting arm for accurate crosscuts and angled mitre cuts. This robust tool is an essential asset for framing, trim work, and molding projects requiring precise dimensions.

Technical Specifications

Input Power	1800 W
No Load Speed	6000 rpm
Blade Diameter	255 mm
Voltage/Frequency	230/110V-50/60Hz

Cutting Capabilities

Cutting Capacity Matrix

Cut Angle (°) (Blade * Base)	Capacity (mm)
0° * 0°	120 * 70
0° * 45°	120 * 45
45° * 45°	70 * 45
45° * 0°	70 * 70
