

Power Strip with Child Safety Outlets

This power strip is designed for household or office use. It features child safety mechanisms in the outlets to prevent accidental insertion of objects and has a standard European plug.

Product Overview

Safety-Focused Power Distribution

This power strip is engineered for reliable and safe power distribution in both household and office environments. Featuring integrated child safety mechanisms, it prevents the accidental insertion of foreign objects into the outlets, ensuring peace of mind. Its versatile design accommodates various electronic devices, making it an essential utility for modern workspaces.
