Product Overview

Pre-Wired LED Assembly

This pre-wired LED lamp assembly integrates essential protection components, including a resistor for current limiting and a diode for reverse polarity protection. Designed for immediate integration into home appliances and electronic equipment, these assemblies provide a reliable and convenient solution for indicator lighting. The compact design ensures secure, insulated connections, making it an ideal choice for streamlined electronic manufacturing and prototyping.

Technical Specifications

| | |
|------------------------|-----------------------------------------|
| Available Lamp Sizes | 3mm, 5mm |
| Available Light Colors | Red, Green, Yellow, White, Blue, Orange |
| Lens Styles | Water clear, Color diffused |
| Included Diode | 1N4007, 1A7 |
| Available Shapes | Round, Straw, Flat |
