

# Precision Handling PU Coated Gloves

These gloves are designed for precision handling and protection. They feature a lightweight nylon liner coated with polyurethane on the palm and fingers for excellent grip and tactile sensitivity.

## Product Overview

### Precision Handling PU Coated Gloves

These precision handling gloves are engineered for tasks requiring high dexterity and tactile sensitivity. Featuring a lightweight, breathable nylon liner and a polyurethane (PU) palm coating, they offer an optimal balance of comfort and grip. The seamless knit construction helps reduce hand fatigue during extended wear, making them an ideal choice for professional environments.

## Technical Specifications

Liner Material	Nylon
Coating Material	Polyurethane (PU)
Coating Coverage	Palm and fingers
Construction	Seamless knit

## Key Features

### Best For

- Precision assembly
- Tactile-sensitive tasks
- General handling

Performance Benefits	Tactile Sensitivity, Abrasion Resistance, Breathable, Lightweight
