

Precision Machinery Screw KG7-M7169-00X

Angelina@reliablesmt.com

This precision screw is designed for specialized machinery applications. It provides secure and reliable fastening in various equipment.

Product Overview

Precision Engineering Component

This high-precision screw component is designed for demanding industrial machinery applications. It is an original, new part manufactured to meet stringent quality standards for secure and reliable fastening. Engineered for compatibility with specific automated equipment, it ensures optimal performance and mechanical durability in complex assemblies.

Product Details

Condition

Original • New

Part Number

KG7-M7169-00X

Cross Reference

5322 502 60165
