

Precision O-Ring for Industrial Machinery

This precision O-ring is designed for machinery and industrial applications. It ensures a tight seal in various mechanical applications, contributing to optimal performance.

Product Overview

Precision Sealing Component

This precision-engineered O-ring is designed to ensure a tight, reliable seal in critical mechanical applications. Constructed from high-quality materials, it is built to withstand demanding operational conditions, offering excellent resistance to wear and degradation. It serves as an essential component for the maintenance and repair of industrial machinery, contributing to optimal performance and equipment longevity.

Technical Details

Part Number	40046058
Component Name	O RING F1
Package Quantity	200 PCS

Compatibility

Associated Components

- O RING F2 (40046059)
- O RING H (40046060)
- BEARING BASE U (40046048)
- BEARING BASE LL (40046049)
- BEARING BASE LR (40046050)
