Overview

Professional Precision Engineering

This professional-grade screwdriver set is engineered for high-precision electronics repair and delicate mechanical tasks. Featuring S2 alloy steel bits with a hardness of HRC60 and a 7075 aluminum alloy handle, this set is designed for maximum durability and wear resistance. Every component is machined to a precision tolerance of 0.01 mm, providing the reliability required by professional technicians.

Technical Specifications

Bit Material	S2 Alloy Steel
Bit Hardness	60 HRC
Machining Precision	0.01 mm
Handle Material	7075 Hard Alloy
Surface Treatment	Anodized, Electroless Nickel Plated

Set Variations

Available Kit Capacities

Model	Bit Count	Case Material
X1	22	Engineering Plastic
X-mini	24	Beech Wood
X-3	54	Beech Wood
