

Precision Sliding Table Saw for Woodworking

This precision sliding table saw is designed for woodworking applications. It features a robust construction, smooth sliding mechanism, and accurate cutting capabilities.

Product Overview

Professional Sliding Table Saw

This precision sliding table saw is engineered for professional woodworking environments and furniture manufacturing. It features a robust, heavy-duty construction paired with a smooth sliding mechanism for consistent, high-quality output. The machine is designed to deliver superior cutting accuracy and efficiency across a wide range of woodworking applications.

Technical Specifications

Model Number	BJC1132F
--------------	----------

Key Features

Operational Strengths

- Robust heavy-duty chassis
- High-precision sliding table mechanism
- Optimized for furniture grade precision
- Professional-grade cutting stability

Compliance & Quality

Industry Applications	Woodworking, Furniture Manufacturing, Precision Carpentry
-----------------------	---
