

Pressure Washer Foam Dispenser

This pressure washer foam dispenser is a high-quality accessory designed to enhance the cleaning power. The adjustable nozzle allows control of foam density and spray pattern for various cleaning tasks.

Product Overview

Professional Foam Dispensing Solution

The Pressure Washer Foam Dispenser is designed to deliver a thick, rich foam that effectively lifts stubborn dirt and grime from vehicle surfaces. Constructed with high-quality brass fittings and a robust plastic bottle, this accessory ensures long-lasting performance for heavy-duty cleaning tasks. It features an adjustable nozzle for customizable spray patterns and foam density, making it a versatile tool for both automotive and home maintenance.
