

Pressurized Steam Cleaner for Surface Sanitization

This steam cleaner is a versatile appliance for deep cleaning and sanitizing surfaces. It utilizes pressurized steam to remove dirt, grime, and bacteria without harsh chemicals.

Product Overview

Professional Surface Sanitization

This pressurized steam cleaner offers a chemical-free solution for deep cleaning and sanitation across various surfaces. Engineered for versatility, the device effectively tackles grime and bacteria on floors, tiles, upholstery, and grout. Its ergonomic design and adjustable steam intensity provide professional-grade control for demanding cleaning environments.

Technical Specifications

Suitable Surfaces
