

Professional Audio-Video Rack Mount Component

This professional-grade TV component is designed for high-performance audio-video applications. It is built for rack mounting in professional broadcast or studio environments and includes a front panel display, navigation controls, and indicator LEDs for power, status, and alarm.

Product Overview

Professional Rack-Mount Integration

This professional-grade rack-mount component is engineered for high-performance audio-video environments, including broadcast and studio setups. The unit features a dedicated front panel interface with intuitive navigation controls and comprehensive indicator LEDs for status monitoring. It provides reliable signal management with integrated alarm and error reporting, ensuring stable operation for demanding digital applications.

Technical Specifications

Status Indicators

Power • Error • Alarm • DVB

Model Identifier

GC 1890D

Front Panel Controls

Navigation Controls, Menu, Lock, Digital Input

Mounting Type

Rack Mount
