Product Overview

Professional Styling Versatility

This professional-grade hair straightener is designed for versatility, allowing users to straighten, curl, and flip styles with ease. It features advanced MCH heating technology with precise temperature control ranging from 80°C to 240°C, ensuring optimal results for various hair types. With a 3D floating plate design and a 360-degree swivel cord, this tool provides both professional stylists and home users with a smooth, efficient, and ergonomic styling experience.

Technical Specifications

Temperature Range

80 °C Min Temperature	240 °C Max Temperature
---------------------------------	----------------------------------

Plate Material Options

Nano Silver Titanium • Ceramic Tourmaline

Heating Plate Size	95 x 26 mm
Heating Element	MCH, PTC, 3D Floating

Features

Key Features

- LCD Temperature Display
- Dual Voltage Compatibility
- Auto-Shut-Off Safety Feature
- 360° Swivel Power Cord
- 2.5 Meter Cord Length

Logistics & Packaging

Logistics Table

Metric	Value
Packing Quantity	20 PCS/CTN
Gross Weight	10.8 KGS
Net Weight	10.2 KGS
Container Load (20ft)	14,928 PCS
Container Load (40ft)	30,928 PCS

Patent Number	ZL 201930513102.7
