

Professional Grade Pneumatic Tool

This is a professional grade pneumatic tool suitable for automotive, industrial, and construction applications. It delivers high torque output and features an ergonomic design for comfortable use.

Product Overview

Professional Grade Performance

This professional-grade pneumatic tool is engineered for high-performance tasks across automotive, industrial, and construction environments. Its durable construction ensures long-lasting reliability under demanding conditions, while the ergonomic design minimizes user fatigue during extended operation. Designed for versatility, it delivers high torque output and integrates seamlessly with standard air compressors and fittings.

Technical Specifications

Torque Output

44 Nm

Torque Rating

System Compatibility

Standard Air Compressors, Standard Fittings

Design & Build

Key Features

- Durable heavy-duty construction
- Ergonomic handle design
- Reduced vibration profile
- High-torque output mechanism

Suitable Applications

Automotive • Industrial • Construction
