

Professional Hair Clipper with Stainless Steel Blades

This professional hair clipper is designed for both barbers and home users. It features stainless steel blades, an adjustable taper lever, and multiple guide combs.

Product Overview

Professional Grooming Performance

This professional-grade hair clipper is engineered for precision and reliability, making it an ideal choice for both salon environments and home grooming. Equipped with high-quality stainless steel blades and a powerful magnetic pendulum motor, it ensures smooth, consistent cutting performance on various hair textures. The ergonomic AC-powered design provides steady operation, while the comprehensive set of included accessories allows for versatile styling and maintenance.
