

Professional Pneumatic Spray Gun

This pneumatic spray gun is designed for professional painting applications. It features adjustable settings for precise control of paint flow and spray pattern.

Product Overview

High-Performance Spray Solution

This professional pneumatic spray gun is engineered for high-precision painting applications, making it an essential tool for automotive refinishing and industrial coating tasks. Featuring a gravity-feed cup design, it ensures efficient material delivery and consistent flow for a superior finish. With fully adjustable settings, operators gain precise control over both paint flow and spray patterns, ensuring reliable performance for demanding projects.

Technical Specifications

Build Quality

Durable Construction • High-Reliability • Professional Grade

Adjustable Controls

- Adjustable Paint Flow
- Adjustable Spray Pattern

Feed Type

Gravity-feed

Ideal Applications

Automotive Refinishing, Industrial Coating, Professional Painting, Fine Finish Projects
