

Professional Power Drill for Demolition

This is a professional-grade power tool for heavy-duty drilling and demolition. It features a robust motor and ergonomic design.

Product Overview

Heavy-Duty Demolition Power

This professional-grade power drill is engineered specifically for demanding demolition and heavy-duty drilling tasks. Its robust motor and ergonomic design ensure reliability and comfort during extended use on construction and industrial sites. With multiple operating modes, it provides the versatility needed for a wide range of renovation and building applications.

Technical Specifications

Voltage	220 V
Frequency	50 Hz
Power Input	800 W
No-Load Speed	850 r/min

Key Features

Performance Highlights

800 W

Power

850 r/min

Speed

Application Areas

Construction, Demolition, Industrial, Renovation
