

Professional Tape Measure with Magnetic Tip

This professional-grade tape measure is designed for accurate and reliable measurements. It features a rubberized casing for enhanced grip and durability, with available lengths from 2m to 8m and blade widths of 16mm or 25mm.

Product Overview

Professional-Grade Measurement

This professional-grade tape measure is engineered for accuracy, durability, and ease of use in demanding work environments. Featuring a robust rubberized casing for superior grip and a nylon-coated blade, it is designed to withstand frequent use while maintaining smooth operation. The inclusion of a magnetic tip and stainless steel protector makes one-person measurements efficient and reliable.

Technical Specifications
