## Overview

### Professional Tire Changer LT-460

The LT-460 is a professional-grade tire changer engineered for efficiency and safety in automotive service centers. Featuring a self-centering clamping system with stepping functionality and a robust hexagonal shaft, this machine handles a wide range of wheel diameters and widths. Built for durability and ease of use, it incorporates pneumatic operation with 3-foot pedals, making it an essential asset for tire installation and removal tasks.

## Technical Specifications

### Key Performance Metrics

**1000 mm**
