

# Protective Cardboard Monitor Packaging with Cable Cutout

This cardboard packaging is designed to protect computer monitors during transit. It features a circular cutout for cable management and ventilation.

## Product Overview

### Professional Monitor Protection

This high-quality protective packaging is engineered specifically for computer monitors to ensure safety during transit and handling. Constructed from sturdy, durable cardboard, it provides robust impact and vibration resistance to prevent expensive equipment damage. The integrated circular cutout design facilitates efficient cable management and promotes optimal airflow to prevent overheating during storage or transport.

## Physical Attributes

Material	Sturdy cardboard
Color	Yellow

## Design Features

### Protection Purpose

- Impact protection
- Vibration dampening
- Preventing shipping damage

Integrated Features	Cable Cutout, Ventilation Support
