

Protective Knee Pads - Pair

These knee pads provide comfort and protection for various tasks. They feature a durable outer shell and a cushioned interior, along with adjustable straps for a secure fit.

Product Overview

Professional Protection and Comfort

These professional-grade knee pads are designed to provide superior protection and comfort during demanding tasks. Featuring a durable outer shell for impact resistance and a soft, gel-effect cushioned interior, they are built for extended wear. The adjustable hook and loop straps ensure a secure and customizable fit, making them an ideal choice for construction, gardening, and home improvement projects.
