

Protective Leather Welding Jacket

This premium leather jacket is designed for superior protection and durability in heavy-duty environments. Crafted from high-grade leather, the jacket offers excellent resistance against heat, sparks, and abrasion.

Product Overview

Professional Welding Protection

This protective leather welding jacket is engineered for superior durability and safety in demanding industrial environments. Crafted from high-grade split cowhide, it provides exceptional resistance against heat, sparks, and abrasion. The design prioritizes user safety with features like a flame-resistant collar and reinforced Kevlar stitching, ensuring reliable performance during welding and grinding tasks.

Material & Construction

Material	Select split cowhide leather
Stitching	Dupont KEVLAR

Design Features

Closure System

- 5 dielectric and insulated snaps
- Leather spatter guard layer

Collar Type	FR roll up collar with hook & loop closure
Convenience Features	Inside pocket, Adjustable cuffs
