Overview

Professional Protective Safety Helmet

This industrial safety helmet is engineered for reliability and comfort in demanding work environments. Constructed from high-performance materials like HDPE and ABS, it provides essential protection against impacts and punctures while offering electrical insulation. With multiple adjustment options and a secure 4-point suspension system, it ensures a stable and comfortable fit for long-term use.

Safety Standards

EN397, CE, ANSI

Material & Protection

Material Construction

- HDPE (Lightweight, strong, tough)
- ABS (High strength, rigid, high brightness)

Protection Capabilities

Anti-puncture • Anti-shock • Insulate

Design & Adjustability

Adjustment Manner

- Pin adjustment
- Ratchet adjustment
- Auto-locking

Suspension & Straps

4-point head suspension with belt and 4-point chin strap

Weight & Technical Specs

Weight by Configuration

409 g

Type A (Total)

447 g

Type B (Total)

422 g

Type C (Total)

Term of Use

1 year

Logistics & Packing

Packing Specifications

Type	Assembly	Qty/Ctn	Weight (kg)
A	Assembly	28 pcs	11/9
A	Separately	30 pcs	14/13
B/C	Assembly	20 pcs	11/9
B/C	Separately	28 pcs	14/13
