

PTFE Thread Seal Tape

This PTFE thread seal tape is made from 100% PTFE. It uses an auto machine to control the tape more exactly.

Product Overview

Professional Grade PTFE Thread Seal Tape

This high-quality PTFE thread seal tape is an essential plumbing accessory designed to create airtight and leak-free connections on threaded pipe joints. Engineered from a thin, chemically inert film, it conforms perfectly to pipe threads to fill gaps and withstand various environmental stresses. It offers superior reliability across a wide range of plumbing applications, ensuring secure, long-lasting performance.

Physical Properties

Width	12 mm
-------	-------

Material Characteristics

Key Properties	Chemically Inert, Non-adhesive, Temperature Resistant, Pressure Resistant
----------------	---

Application

Primary Application	Threaded pipe joints
---------------------	----------------------

Performance Metrics

Performance Benefits

- Creates airtight seals
- Prevents leaks in plumbing systems
- Conforms to threads and fittings
