

PTO Shaft Adapter

This PTO adapter connects different sized PTO shafts to ensure compatibility between agricultural implements and tractors. Its robust construction features precision-machined splines for secure power transmission and reduced wear.

Product Overview

Universal PTO Shaft Adapter

This PTO adapter is expertly designed to provide seamless compatibility between various tractor PTO shafts and agricultural implements. Featuring robust construction with precision-machined splines, it ensures secure power transmission and minimal wear during operation. Crafted from hardened steel, this adapter is built to withstand high torque and demanding agricultural environments.

Technical Specifications

Material	Hardened Steel
Key Features	Precision-machined splines, High torque resistance, Integrated locking mechanism

Application & Compatibility

Common Applications

- Adapting 540 RPM PTO shafts to 1000 RPM implements
- Adapting 1000 RPM PTO shafts to 540 RPM implements
- Adapting different shaft sizes

Compatibility	Suitable for all types of tractors
