

Pump Action Oil Can with Flexible Spout

This oil can features a flexible spout for reaching difficult lubrication points. It is made from durable metal and uses a pump-action trigger for dispensing oil in a controlled manner.

Product Overview

Precision Lubrication Solution

This durable pump-action oil can is designed for controlled and precise lubrication across automotive, industrial, and home maintenance environments. Featuring a flexible spout, it allows users to reach difficult areas with ease. The unit is available in multiple capacities to suit various operational requirements, ensuring reliable performance for routine machinery upkeep.

Technical Specifications

Available Capacities

- 250cc
- 350cc
- 500cc

Dispensing Mechanism	Pump-action trigger
Spout Type	Flexible
Construction Material	Metal

Applications

Recommended Applications	Automotive, Industrial, Home Maintenance
