Product Overview

Industrial-Grade PVC Marking Tape

This high-performance floor marking tape is engineered for durability in demanding industrial environments. Utilizing a premium PVC soft film backing coated with natural rubber, it provides superior adhesion, waterproofing, and slip resistance. It serves as an ideal solution for identifying pathways, marking dangerous locations, and ensuring organizational safety in warehouses and factories.

Technical Specifications

Key Performance Traits

- Waterproof
- Non-slip surface
- Strong viscous force
- Abrasion resistant
- Chemical resistant

Thickness Range

0.2 mm

Material Composition

PVC Soft Film, Natural Rubber Adhesive

Logistics and Customization

Standard Delivery Lead Time

25 Days

Max Lead Time
