

PVC Pipe Cutter

This tool is designed for cutting PVC pipes. Models feature either die-cast aluminum or nylon construction with hardened and tempered tool steel blades.

Product Overview

Professional PVC Pipe Cutting Solutions

This range of PVC pipe cutters is engineered for precision and durability in professional plumbing and construction environments. Featuring a variety of models including die-cast aluminum and lightweight nylon constructions, these tools are built to handle diverse pipe diameters with ease. Each cutter utilizes hardened and tempered tool steel blades, ensuring clean, efficient cuts and long-lasting performance for demanding applications.

Technical Specifications

Model Specifications

| Model | Capacity (mm) | Weight (kg) | Material |
|--------|---------------|-------------|-------------------|
| PC-307 | 06-42mm | 0.745 | Die-cast Aluminum |
| PC-305 | 06-36mm | 0.525 | Die-cast Aluminum |
| PC-304 | 06-36mm | 0.525 | Die-cast Aluminum |
| PC-303 | 06-26mm | 0.288 | Nylon |

Performance Highlights

42 mm

Max Cutting Diameter

0.745 kg

Max Tool Weight

| | |
|-----------------------|--|
| Blade Material | Tool steel (hardened and tempered) |
| Key Features | Hardened Steel Blade, Quick-release Mechanism, Ergonomic Design, Corrosion Resistant |
