

PVC Pipe Cutter for Plumbing

This PVC pipe cutter is designed for cutting PVC pipes with precision and ease. Its sharp blade ensures clean and accurate cuts, while the ergonomic handles provide a comfortable grip and reduce hand fatigue.

PVC PIPE CUTTER

JRF-PC-209

Product Overview

Professional PVC Pipe Cutter

The PVC Pipe Cutter is a precision-engineered tool designed for clean, accurate cuts on various pipe diameters. Its sharp, durable blade minimizes effort, while the ergonomic handle design ensures user comfort and reduces fatigue during extended use. This reliable tool is an essential addition to any plumbing or construction toolkit, providing consistent performance in demanding work environments.

Technical Specifications

Primary Application

Plumbing • Construction

Key Features

- Precision cutting blade
- Ergonomic handle design
- Reduces hand fatigue
- Suitable for various pipe diameters

Model Number

JRF-PC-209
