

PVC Pipe Cutter

This specialized tool is designed for making clean, precise cuts in PVC pipes. It features a sharp, durable blade that effortlessly slices through PVC material, ensuring smooth edges and accurate dimensions.

Product Overview

Professional PVC Pipe Cutter

This specialized cutting tool is designed to deliver clean, precise cuts on PVC pipes up to 42mm in diameter. Built with a high-durability blade and an ergonomic handle, it ensures consistent results while reducing user fatigue. It is an essential tool for professional plumbing, irrigation systems, and general installation tasks.

Technical Specifications

Max Cutting Capacity

42 mm

Capacity

Body Material	Aluminium
Blade Material	High carbon 65Mn steel

Key Features

Highlights	Ergonomic Design, Precision Cut, Durable Construction
