

PVC Solvent Cement Adhesive for Pipe Fittings

This is a PVC solvent cement adhesive used for bonding PVC pipe fittings. It comes in a 500ml container and is suitable for plumbing and construction applications.

Product Overview

Professional Grade PVC Bonding

This high-performance solvent cement adhesive is specifically engineered for the secure bonding of PVC pipe fittings in plumbing and construction applications. Designed for reliability, it ensures a strong, durable seal essential for fluid transport systems. Its efficient formulation makes it a cost-effective solution for large-scale installation projects.

Technical Specifications

Product Code	DR2
Container Volume	500 ml
Primary Application	PVC Pipe Bonding, Plumbing, Construction

Usage Efficiency

Adhesive Consumption Guide

Pipe Diameter (mm)	Joints per 100ml
50	20
75	10
110	9
160	3

Performance Highlights

20 per 100ml

Joints (50mm)

3 per 100ml

Joints (160mm)
