

Pyramidal Stainless Steel Range Hood with Tempered Glass

This range hood features a pyramidal stainless steel filter and push-button controls. It has a stainless steel and tempered glass finish and a two-speed, 190W motor.

Product Overview

Professional Kitchen Ventilation

The Pyramidal Stainless Steel Range Hood with Tempered Glass is designed for efficient smoke, grease, and odor removal in residential kitchens. Featuring a modern tapered design and intuitive piano-key controls, this unit offers reliable performance for high-heat cooking environments. Its durable construction ensures longevity and a sleek aesthetic that integrates seamlessly above any cooktop or range.
