

PZ-9 Mud Pump Ceramic Liner

Ceramic liners designed for Gardner Denver PZ-9 mud pumps. These liners offer superior wear resistance and extended service life in drilling applications.

Overview

High-Performance Ceramic Liner

These ceramic liners are engineered for superior wear resistance and extended service life in demanding drilling applications. The ceramic material provides exceptional resistance to abrasion, corrosion, and high temperatures, ensuring reliable operation and reduced maintenance costs. Precision-machined to exact specifications for optimal fit and performance.

Compatibility

Compatibility	OEM Interchangeable
