

QSB6.7 Diesel Engine Piston 5274516 for Construction Machinery

This piston is designed for Cummins QSB6.7 diesel engines used in construction machinery. It is a critical component for engine functionality, ensuring optimal combustion and power output.

Product Overview

High-Performance QSB6.7 Diesel Engine Piston

This precision-engineered piston is designed specifically for QSB6.7 diesel engines used in heavy-duty construction machinery. Manufactured to meet or exceed OEM specifications, it ensures optimal combustion efficiency and reliable power output under demanding operating conditions. Its robust construction is built to withstand high pressures and temperatures, making it an essential component for engine maintenance and long-term durability.

Technical Specifications

Engine Type
Diesel Engine

Part Number

5274516

Engine Model Compatibility

QSB6.7

Bore Size

Standard (STD)

Place of Origin

China

Commercial Terms

Warranty

6 Months

Warranty Coverage

Accepted Payment Terms

T/T, L/C at Sight, Western Union, Money Gram, Paypal

Trade Terms

EXW, FOB, CFR, CIF, CNF

Logistics & Packaging

PACKAGING

SUNON

Packaging Details

- Original packing
- Neutral packing
- Custom branded boxes (with authorization)

Standard Delivery Time

Within 3-7 working days after payment receipt

Main Export Ports

Shanghai, Ningbo, Shenzhen, Guangzhou, Qingdao, Tianjin

Applications

APPLICATION

SUNON

Compatible Machinery

- Excavators
- Loaders
- Generators
- Construction Machinery
- Maritime Equipment
- Agricultural Machinery
