

Quartz Controlled Analogue Time Switch

Analogue time switch with quartz control and a daily program. It has a shortest switching time of 30 minutes and is suitable for DIN rail mounting with screw terminals.

Product Overview

Precision Quartz Control

The SUL 181h is a reliable analogue time switch designed for precise daily scheduling. Utilizing quartz control, it ensures accurate timekeeping and includes a 150-hour power reserve to maintain settings during power interruptions. Its compact design is optimized for standard DIN rail mounting, making it an ideal choice for professional electrical installations requiring consistent daily operation.

Technical Specifications

Shortest Switching Time

30 minutes

Minimum Interval

Switching Capacity	16 A
Rated Voltage	230V AC
Frequency	45-60 Hz
Power Reserve	150 h
Contact Configuration	1 Changeover Contact

Installation & Environment

Protection Class

IP20

Mounting Type	DIN Rail
Operating Temperature Range	-10°C to +50°C
Dimensions (H x W x D)	90 x 36 x 66 mm
